NEW YORK, March 29.-The anima NEW YORK, March 23.—The animation and strength of the stock market to-day was a surprise, in view of the experiment of keeping the Stock Exchange open on Good Friday, contrary to the usual custom. It was expected that operations would be more than nominal, as the keeping open of the exchange was largely a concession to the bankers to avoid the necessity of making loans on Thursday to carry over until Monday. There was a small attendance on the floor of the boardroom when the market opened, and commission houses reported that cusroom when the market opened, and commission houses reported that customers were almost entirely lacking. The London Stock Exchange followed the custom there, and remained closed, and no business was supplied from that and no business was supplied that the majority of members had taken advantage of the opportunity to get away from the city. When the activity began to sho weigns of revival the conviction that room traders' op-erations were given an artificial ap-pearance to the accident. Neverthe-less a substantial day's business was recorded, and the price movement was decided and comprehensive. The rapid decided and comprehensive. The rapid advance in prices is explained on the meeds of still uncovered short interest rather than investment buying or new speculation for an advance. Mostly as A-result of the Treasury's relief measures, the banks seem to have gained upwards of \$12,000,000 of cash reserves during the week. The money market was little affected by reparations for the Monday settlements, altions for the Monday settlements, altions for the Monday settlements, al-though call loans were quoted at yes-

terday's renewal rate.

The widest movements of the day were in the HIII and Harriman stocks and Canadian Pacific. Canadian Pacific gave signs of distressed short interest. Active bonds were firm, but small blocks of some inactive issues were marketed at wide concessions. Total sales, par value, \$1,940,000. United States bonds were unchanged on call. Total sales stocks to-day, \$76,300

DUN'S REVIEW.

NEW YORK, March 29.—R. G. Dun and Company's weekly review of trade to-morrow will say:

Taster retail trade surpasses expectations, favorable weather bringing out a very large volume of business during the last week, while activity was not confined to specialties, but extended to all seasonable lines of staple merchandiss. Wholesale and jobbing houses received many supplementary orders, especially for dry goods and millinery, and further improvement in collections was reported. Announcement my some railways that retrenchment must curtail plans for extensions has had no perceptible influence on the iron and steel industry, owing to the wardity of stocks in all positions. "More quiet conditions prevail in the primary markets for cotton goods, but prices are well maintained, producers having large contracts on hand. Jobbers report the first rush of the season as ended, many buyers having returned home; yet those still in the market operate liberally, and reports from the West and South indicate that early spring orders from retailers have been most satisfactory. The only changes of the week were upward, and the satisfue of sellers has lost none of the independence that has characterized operations thus far this year. Sales at second hands deviate little from the general level. Export trade is still slow, but the manufacturer is securing better returns from machinery diverted to home business than could have been received on foreign exchange. Congestion of stocks at Shagnlai still dominates the Chinese market and South America sunpiles practically all the export demand, but the dress goods division is better established. "New England shoe manufacturers have about concluded on large spring contracts, and have commenced cutting fall footwear on orders from Western wholesalers. Interest has maddenly an neared in russet shock, for which reinitiers have made inadequate prenartion, and jobbers are now greing makers to forward calf and kid-colored shoes as randdy as possible."

ON THE LOCAL MARKETS

TOBACCO BREAKS DWINDLED GREATLY

The leaf tobacco breaks dropped off esterday on account of an unexpected sales nardly amounted to 20,000 pounds.

SMALLER RECEIPTS

OF COUNTRY PRODUCT The receipts of country produce on the wholesale market were much smaller than on Thursday; indeed, smaller than the commission men ex-pected. The result was that figures on sales nardly amounted to 20,000 pounds. That sold was of good quality, and the market was very firm. The buy-ers were out in full force, and bid as warehouse floors as if there had been large breaks.

Information from the bright markets is to the effect that receipts have been light this week, and the Danville and South Boston markets are reported very active, the buyers being anxious for supplies and paying outside figures for the limited stocks showing up.

STOCKS AND BONDS.

Yesterday was a very good Friday on the stock market, and the men who own railway and industrial securities were delighted with the records made by the tickers. The New York market was strong and active, the transactions on the exchange presenting little of the usual ante-holiday character. There was urgent short covering all over the list, the most pronounced advance being in Canadian Pacific, where it is rumored a virtual corner exists. Altogether, it was a very bad day for the bears.

It is true during the first hour trading was extremely dull and irregular, but thereafter it was very strong. The market developed buoyancy toward midday.

ket developed buoyancy toward midday, and the upward trend was continued until near the close, when it was checked by profit-taking sales and some liquidation

"The fundamental reason why the market has acted so well," wired a Gotham authority yesterday, "is that money has been working easier lately, and people feel that after the first or middle of April rates will be very much lower and remain permanently so. We believe we have main permanently so. We believe we have seen the last of the extreme and very trying money rates for a very long time to come, for we believe that general business is going to fall off, and that the mercantile community will soon experience a little of the same sort of strain under which financial interests have been laboring during the past few weeks.

and the upward trend was continued until near the close, when it was checked by profit-taking sales and some liquidation on the news that application had been made in the United States Court at Austin, Texas, to enjoin the payment of certain special dividends on April 1st. The selling movement which was started by this news caused a reaction of from one to two points from the top, but still left the list well above Thursday's final figures.

The sales for the day amounted to 893,150 shares. The Stock Exchange will be closed to-day.

SKYSCRAPER ON BROAD STREET

M. L. Hoffheimer to Put Up Big Building at Eighth.

Eighth.

Still another skyscraper is to be erected in Richmond. Mr. M. L. Mhelmer, who owns the lot just to the west of the new Bjour Theatre, has been frequently urged to build upon it a stag hotel, and at one time he had almost made up his mind to do so, but now be has given up that idea and has definitely decided to erect a big office building with stores on the first floor.

Plans are being drawn by an architect for a nine-story building, but Mr. Hoffhelmer said to a Times-bispatch man yesterday afternoon that the design will be so arranged that it can be readily changed to a higher building, and he really thinks now he will erect a twelve-story building, possibly fourteen.

It is expected the plans will be completed within two weeks, and then a definite decision as to the number of stories will be reached and contractors will be asked to bid on the work.

GOOD DAY FOR REUNION FUND

First of all the contributions to the Confederate Reunion fund which came in yesterday was an unsolicited gift from the Richmond Cedar Works—a check for \$100—which was halled with joy, as it set money matters going in the right direction again. This contribution was followed a little later by another gift of like amount from "A Friend," and then there came smaller remembrances, ranging from \$1 to \$10. The day's total, in short, was eminantly satisfactory and eminently encouraging, and it dissipated much of the despodency left by the day before, when not a single cent was received.

RAILROAD NEWS FROM ALL POINTS

Story About Tearing Down Main Street Station for Freight Depot Ridiculous.

IMPROVEMENTS TO BE MADE

vesterday to a rumor alleged to be on the streets to the effect that the Chesapeake and Ohlo Main Street Station is to be torn down to make room for a union freight depot, and that a new union passenger station is to be creeted at some point south of Main Street, all to cost something over a million dollars. On the authority of officials of the Chesapeake and Ohlo, it was stated in this column that the companies said to be interested have no such scheme in view. However, the story was repeated with some additional trimmings yesterday afternoon. The Times-Dispatch has it now from the highest Chesapeake and Ohlo authority that there is absolutely not a semblance of foundation for the story.

when the Main Street Station was When the Main Street Station was first built, in fact, before it was completed, many railroad men said it was not large enough, and there were also many railroad men and other citizens who expressed the opinion that sooner or later the passenger station would be enlarged and become a union station for all the roads entering Richmond. It is still believed by railway people and others that eventually this will be done, but the highest official authority assures The Times-Dispatch that no action looking to this scheme even has ever been taken.

The Chesapeake and Ohio has arranged to enlarge and generally improve its Broad Street freight depot, and also its basin freight depot, Material has been put in place and work

and also its basin freight depot. Material has been put in place and work already commoneed on the enlargement of the basin depot facilities.

These are the only improvements and enlargements as to depots the Chesapeake and Ohio contemplates for the present. Officials of the Chesapeake and Ohio, and in fact of all the lines centreing in this city, say the thought of tearing down the Main Street depot is simply too ridiculous to attract attention.

It is said that in two or three weeks the Southern will be operating its double-track between Greensboro and Salisbury in North Carolina. This will enable the passenger trains to make better averages on their schudules, for much of the delay has been caused by the crowded condition of the line between these points.

The Scaboard Air Line is arranging to remove about thirty bridges, large and small, on its line between Norlina and Hamlet, and replace them with steel double-track bridges. This is supposed to mean that the road is preparing to become a double-track line,

President Stevens, of the Chesapeake and Ohio, is in West Virginia on official business. Paymaster J. A. Hancock has just returned from his monthly disbursing tour over the line. He made all operatives from Old Point to Cincinnati happy by handing over to them the wages they carned in the month of February.
